

EHS Due Diligence for Gas Stations and other assets in Oil and Gas Services, Germany

Service area	Contract value	Project duration
Environmental Consulting, Due Diligence	€300,000	06/2012 - 08/2012

Project description:

Environmental, Health and Safety, Due Diligence assessment activities during the transaction evaluation process for the acquisition of a portfolio, including 1,131 Gas Stations and 100 other installations (refineries, deposits, pipelines, storage, offices and brownfields).

Further project data:

- The pipelines developed in six European countries and included deposits in France and Italy

Purpose:

- Evaluation of the potential environmental liabilities during the transaction process

Our services:

- Preliminary EHS investigation and audit
- Data room review
- Environmental and technical compliance review
- Cost estimates of the potential environmental liabilities identified

Client benefits:

- HPC successfully completed the Due Diligence of the entire Portfolio in 3 months
- HPC assisted the client in the development of a cash flow built according to the historical environmental spending and capital expenditure provided in data room by the Vendor
